

23rd Newsletter

Prof Bartzanas, Prof Nychas and Dr Chrysoula Tassou, disseminate the findings of DiTECT project in the 12th International Fair For Livestock & Poultry. The event took place in Thessaloniki, 2-5 of February, at the Thessaloniki International Exhibition & Conference Centre (ZOOTECHIA 2023)

23rd Newsletter

The banner of DiTECT project (shown below) provided the audience with a very descriptive idea of the importance of precision in agriculture and especially in the field of husbandry
